

I am registering a complaint against Sinclair Broadcasting for pre-empting their regular programming on some 62 broadcasting stations to air a blatantly biased and political program, which is not paid for by the candidate these programs are advocating. I have worked in television for 26 years and have never seen such an event happen, or be allowed to happen, on "free television." The broadcast spectrum is owned by all Americans and it is regulated by you, the FCC. In exchange for America's airwaves, the FCC is charged with protecting the public interest. If you allow Sinclair to go ahead with these blatantly pro-Bush, anti-Kerry programs, the FCC is betraying the trust of American citizens. I hope you do the right, and not the political, thing in this decision.
